# LEATHER CONVERSION EXPERTS

## SPECIALIZING IN BESPOKE LEATHER CONVERSIONS

Harvian Global Solutions is Africa's premier leather manufacturer and vehicle interior specialist. With over 25 years' experience, we continue to revolutionize and lead the automotive conversion industry. Our reputable list of clientele, internationally renowned dealership relations and transformation of numerous vehicles in the country is an ode to our knowledgeable staff and quality services.

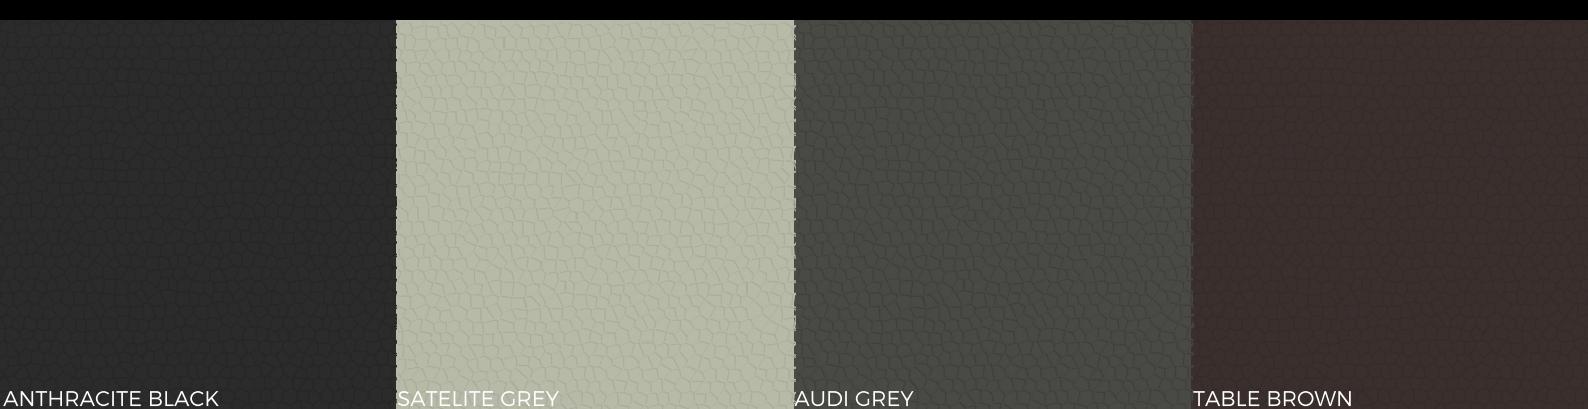

We currently dominate the existing South African market with over 200 vehicle models driving through our factory floors. Entrusting Harvian Global Solutions with your valued possession not only allows you to tap into industry-leading interiors but connects you to an esteemed leather legacy.

Harvian Global Solutions' inspired and customized designs are created by our dedicated team of experts. Our interiors are crafted from industry-leading leather materials that boast an A-grade (full-grain) rating. This is the highest international automotive material rating. This ensures that our clients receive vehicle upholstering that exceeds expectations.

Harvian Global Solutions prides itself in not only producing precisely engineered leather materials but the highest level of technical expertise. These efforts are spearheaded by our custom equipment and professional installers that are trained in both automotive engineering and design.

It is important to note that Harvian Global Solutions does more than seat covers. Seat covers are generic slipcovers that leave a loose and unappealing look. Harvian Global Solutions mandates to transform the interiors of all vehicles by creating custom-fit leather seating. Our general rule of thumb is that where there is factory-fit cloth, we will replace it with our incredibly sleek and classic leather material. This includes the surfaces of all seats, door panels and the centre console area. To add to this experience, all of our leather interiors come with a 1-year guarantee!

Create, design and express with Harvian Global Solutions as we look to revitalize, reenergize and upgrade the look and feel of your vehicle's interiors, with the durability, ease and aesthetics that Harvian Global Solutions is known for.

# STITCHING

OUR CLIENTS ARE LEFT SPOILT FOR CHOICE WITH 9 STITCHING COLOURS TO PAIR WITH THEIR BESPOKE LEATHER INTERIOR.

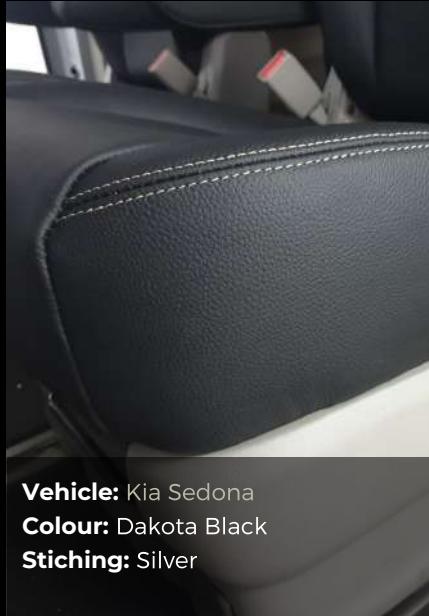

# FITMENTS: OUR LATEST WORK

Instead of making a dramatic change like buying a new car, our clients opt for a change of scenery instead. Whether they're buying a used car or just wanting to upgrade their own car, they always feel like the first driver in the seat.

**Colour:** Dakota Black  
**Stiching:** Orange

**Vehicle:** VW Tiguan  
**Colour:** Dakota Black  
**Stiching:** Blue  
**Extra's:** Custom embroidery

# REPAIRS: CHALLENGE ACCEPTED

Sometimes our interiors don't warrant an entire makeover but instead need a little TLC. It is all in the details after all. Let us take care of any interior repairs that you may need; ensuring that your vehicle's interiors showcase sophistication, comfort and care.

## JETTA REPAIR

We totally transformed this Jetta by doing a full leather conversion and replaced the previously worn and damaged cloth interior.

**Colour:** Dakota black

**Stiching:** Blue

## BMW REPAIR

We gave this BMW 640i a rich highlight by placing our Grey Satellite leather throughout its interiors and repaired the centre console
